This guide explains what Jathagam Porutham is, why it matters, and how it is evaluated.

What Is Jathagam Porutham?

Jathagam Porutham refers to the astrological method of matching two horoscopes based on planetary positions at birth. It is widely followed in South India to assess marriage compatibility.

Key aspects considered include:

- Nakshatra (birth star)
- Rasi (zodiac sign)
- Planetary strength
- Dosham (astrological defects)

This system helps predict married life outcomes such as understanding, stability, prosperity, and longevity of the relationship.

Matching horoscopes before marriage offers several benefits:

- Reduces conflicts and misunderstandings
- Helps avoid future marital issues

- **Rahu–Ketu Dosham**
- **Kalathra Dosham**

Dosham does not always mean rejection. In many cases, remedies or mutual dosham cancellation are possible.

Can Marriage Work Without All Poruthams?

Yes. While traditional systems prefer 8–10 poruthams, modern astrology also considers:
